

Cooperation, direction

- P1 tries to send a ball inside the target on the ground (direction).
- As soon as the ball crosses the net, P2 must position himself at the net. If P1's shot falls inside the target, P2 will play the point against P3. If P1 misses his feed, he must feed again without losing the point.
- 10-point game between P1-P2 against P3. Change roles after the game.
